

# Foundries

**A**n efficient foundry must have a properly designed and operating dust collection system. At Bassett, we've been engineering, fabricating, installing and servicing foundry dust collection systems for decades for many of the Midwest's largest foundries.

## The work we do:

- Dust and fume collection
- Exhaust stack work
- Confined space
- Service programs
- Ventilation
- 'Man' cooling
- Piping
- Cupola/furnace fabrication
- Bag house maintenance
- Metal fabrication
- Make-up Air

## Partial list of clients:

- Neenah Foundry
- Brillion Iron Works
- Sparta Foundry
- Waupaca Foundry
- Aarrow Cast
- Berlin Foundry
- Grede Foundry
