## PSM Services Process Safety Management

*Compliance is tough. We can help.*

*Creating Customers for Life®*

Bassett Mechanical provides Process Safety Management (PSM) services from general consulting to complete program development. With our expertise in industrial refrigeration, our PSM services provide assistance to your organization in developing a safe work environment that will protect your brand and provide regulatory compliance. We not only want you to have peace of mind by securing the safety of your people, property and product, but the financial protection from potential non-compliance violations.

## PSM Services Offered

- Process Safety Information (PSI)
  - Refrigerant charge calculations
