Creating Customers for Life[®]

"It's a really good feeling to be taken care of as a customer."

– Jay L., Madison Kipp Corporation

Commitment to Safety

Safety and a job well done are one and the same at Bassett Mechanical. We are dedicated to providing a safe and injury-free workplace for all our associates and focus on the safety of our customers and communities by implementing safe practices throughout each step of our projects. President and CEO Kim Bassett frequently states, "I want a safe place for our associates so they go home at night to their families as safely as they arrived in the morning."

Bassett Mechanical provides custom-built industrial refrigeration, HVAC, plumbing, metal fabricating, and preventative maintenance solutions to customers throughout the United States and the world. Our 268,000 sq. ft. manufacturing facility is headquartered in Kaukauna, Wisconsin, with additional office locations in Madison, Milwaukee, and Wausau, Wisconsin, and Rochester, Minnesota.

Bassett Mechanical is your full service provider with expertise that includes engineering and design, fabrication, industrial ventilation, piping, hygienic duct solutions, laser cutting, testing and balancing, HVAC and PLC controls, Process Safety Management (PSM), emergency response, and proactive preventative maintenance. We provide service regionally, construction services nationally, and ship fabrications globally.

Lean

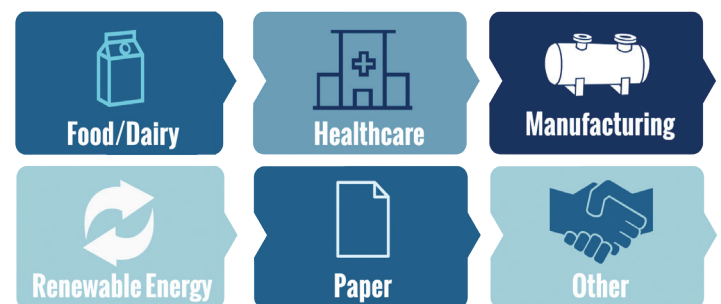

Bassett Mechanical has been practicing the principles of Lean since 2006 and these principles are fully integrated into our daily operations and business model. We are deeply committed to continually improving the quality of our products, services, and responsiveness to our customers' needs. We empower our employees to make improvements that create greater value for our customers by eliminating waste and continuously improving the delivery of products and services we offer.

ISO Certification

Bassett Mechanical was the first mechanical contractor in the State of Wisconsin to be ISO 9001:2000 certified. We became one of the early adopters of the new ISO 9001:2015 standard after passing a two week audit of our business processes. Customers of ISO-registered companies know they can expect products and services of exceptional quality that are continually improved and consistently meet or exceed their expectations.
