# INDUSTRIAL REFRIGERATION

Our unique combination of engineering, technical, and field management expertise allows us to be your single source for project planning, design and engineering, fabrication, installation, and preventative maintenance and service.

## A LEADER IN INDUSTRIAL REFRIGERATION SINCE 1936

When you choose Bassett Mechanical, you're gaining decades of experience and a team of experts who deliver innovative, safe solutions with both current and future needs in mind. We ask the right questions, offer fresh perspectives, and tailor every solution to provide long-term value.

As a single-source provider, we design, build, install, and service industrial refrigeration systems—delivering high performance while protecting your investment. Our team manages scope, budget, and timeline efficiently, coordinating closely to reduce downtime and disruptions.

## VALUE-ADD SOLUTIONS

- > One of the largest mechanical contracting teams of designers and engineers in Wisconsin with over 20 project managers and more than 20 engineers and designers
- > Engineers with extensive industry experience, delivering customized solutions efficiently and effectively
- > Expertise in ammonia, CO2, and other natural refrigerant solutions
- > Advanced 3D CAD and BIM (Building Information Modeling) design tools and scanning
- > Pre-fabrication in our 300,000 sq. ft. facility to streamline field installation, reduce downtime, and ensure high-quality results
- > Custom specialty fabrications including ASME pressure vessels, hygienic duct, and skid packages
- > Comprehensive Process Safety Management (PSM) and Risk Management Program (RMP) development and support
- > RETA CIRO Certified Service Technicians and 24/7 emergency response
- > Integrated HVAC and refrigeration control systems
- > On-going service and tailored preventative maintenance agreements

## ADDITIONAL CAPABILITIES

**Beyond our extensive and full-service industrial refrigeration offering, Bassett Mechanical also offers:**

- > Custom HVAC (Heating, Ventilation, and Air Conditioning) and gas systems
- > Automated control systems and controls integration
- > Commercial and industrial plumbing and process utility piping
- > Specialty fabrications including industrial HVAC ventilation and piping
- > Refrigeration and HVAC parts supplier
