PLC CONTROLS

At the forefront of industrial refrigeration solutions, we specialize in delivering cutting-edge PLC controls tailored for both new equipment and retrofit projects. Our expertise spans gas detection systems, ventilation, shutdown systems, and custom skid packages—each designed with safety and efficiency in mind. Backed by RETA-certified engineers and ignition certified capabilities, we ensure every system meets the highest standards of performance and compliance.

CONTROL SYSTEMS THAT FIT

We understand that your operation demands more than just an average control system. By leveraging the best-suited products and technologies for your facility, we ensure every system is precisely engineered to meet your unique needs.

SYSTEM FEATURES

- Web-based and remote system access
- Multi-level secure user authentication
- Real-time interactive graphical interface
- Custom designed and automated reporting tools
- Alarm notifications via email and text message
- Remote I/O integration via industrial control networks
- Real-time and historical trending and analysis

SERVICES WE PROVIDE

- PLC based industrial control systems
- Comprehensive onsite system assessments
- Clearly documented and maintainable PLC programs
- AutoCAD based drawings
- Customized operator training with full operations manual
- UL Listed custom control panel design and assembly
- System upgrades engineered with minimal downtime
- Control system audits and evaluations

QUALITY PRODUCTS

We use quality products including:

- Allen-Bradley PLC/PAC
- FactoryTalk View SE/ME
- Inductive Automation Ignition
- Allen-Bradley Pushbuttons and Signaling Devices
- Saginaw and Hoffman Enclosures
- IFM Efector
- Eaton
- Wago
- AND MORE!
