TAILORED PIPE FABRICATION

For 90 years, we've delivered customized pipe fabrication solutions to customers across a variety of industries, including manufacturing, industrial refrigeration, food and beverage, and more.

FABRICATION YOU CAN COUNT ON

We specialize in the engineering, design, and fabrication of high-quality pipe spools and modular skid packages. Our solutions are crafted from a wide range of materials and offered in various sizes, thicknesses, and complexities to meet your specific needs.

Our highly skilled team includes UA-trained tradespeople and in-house Certified Welding Inspectors, with deep expertise in ASME pressure vessels, modular skid systems, and pipe spool fabrication. We take pride in our craftsmanship, commitment to quality, and consistent on-time delivery—every time.

MATERIAL CAPABILITIES

- > 300,000 sq. ft. facility
- > Local 400 UA-skilled journeymen and apprentice pipefitters
- > 200+ ASME weld certifications in accordance with ASME Section IX
- > ASME-certified shop: "U", "R", "S" stamps; B31.1, B31.3, B31.5 compliance
- > 5-axis CNC pipe cutting (2"–36" OD) with oxy-fuel, plasma, and low-amp scribing capabilities
- > In-house plasma cutting, laser cutting, rolling, and forming for custom supports and fittings
- > On-site blasting and painting services
- > State-of-the-art welding machines and commercial weld processes
- > Affiliations with the National Certified Pipe Welding Bureau (NCPWB) and Pipe Fabrication Institute (PFI)

EXPERT DESIGN SOLUTIONS

- > 2D and 3D CAD modeling for accurate and efficient design
- > Isometric pipe spool drawing and software capabilities
- > In-house team of engineers, project managers, and draftsmen
- > Seamless collaboration from concept through fabrication
- > Design expertise tailored to meet complex project requirements

QUALITY YOU CAN TRUST

- > AWS certified welding inspectors
- > Visual Testing (VT)
- > Radiography Testing (RT) - third party
- > Ultrasonic Testing (UT)
- > Magnetic Testing (MT)
- > Dye Penetrating Testing (PT)
- > Positive Material Identification (PMI)
- > Hydrostatic testing
- > Pneumatic testing
- > ISO 9001:2015 Certified
- > Fully integrated Lean practices since 2006
