RELIABLE PLUMBING SERVICE

From preventive maintenance to specialized piping and emergency support, our team delivers reliable solutions tailored to your facility's needs. Our plumbing service capabilities include:

- > Preventative maintenance programs - customizable tasking sheets to extend equipment life & reduce service calls
- > Backflow prevention - testing, installation, repair & certification
- > Cross-connection surveys
- > Install, troubleshoot, replace - water heaters, storm, and sanitary pumps
- > Video pipe inspection, locating and drain cleaning
- > Piping capabilities - install, repair and replacement of water, sanitary and storm drain systems, compressed air, and natural gas systems
- > Medical & industrial gas piping
- > Water purification - water softener, filtration, RO and DI systems
- > 24/7 emergency service with fully stocked plumbing vans

PROJECTS BUILT TO PERFORM

Bassett Mechanical is your trusted partner for plumbing projects that demand precision, performance, and peace of mind.

- > Design-building/direct-to-owner partnerships - streamlined collaboration, faster decision-making, and fewer change orders
- > In-house engineering - calculations, system layout, and code compliance tailored to your facility
- > BIM-driven design - 3D modeling to visualize, coordinate, and optimize plumbing systems before construction begins
- > Precision fabrication - custom pipe spools and assemblies built in our environmentally controlled facility to streamline a safe & cost-effective installation
- > Coordination of plan approval and permitting process
- > Continuous estimating to ensure projects remain on budget
