SERVICE

"I've worked with Bassett Mechanical for many years, and they never disappoint. Their customer service team is helpful and responsive, and their field technicians are friendly and knowledgeable. They keep our HVAC systems well maintained and handle repairs quickly. I'd recommend them to anyone looking for a reliable contractor—you won't regret it!"

— Gerardo F., Muza Metal Products

CUSTOM SERVICE PROGRAM

- Customizable service programs covering the full mechanical maintenance of your system—including controls, components, parts, and labor
- Over 125 certified HVAC, industrial refrigeration, and systems control technicians, including RETA-certified professionals
- Ongoing preventive maintenance ensures optimal energy efficiency and extends equipment life—protecting your investment

PROGRAMS THAT SET THE INDUSTRY STANDARD

- Predictable, fixed pricing for service—including coverage for equipment failure—to help manage costs
- Opportunities to reduce operational expenses through energy optimization planning
- Improved system reliability, efficiency, and extended equipment life
- Proactive equipment replacement and capital budgeting
- Automated service reports and customer portal access to monitor equipment history and view all maintenance records
- Technical support for Ammonia Refrigeration Systems

ADDITIONAL SERVICES

Bassett Mechanical offers a unique combination of engineering and field management expertise allowing us to be your single source for design, fabrication, project planning, and installation. Other services include:

- Filtration media solutions
- Emergency ammonia and HVAC response for food plants
- Energy management systems
- Vibration testing, winding resistance, refrigerant charge, fan RPM, and oil analysis
- Air and water balancing
- Custom-designed industrial heating, cooling, refrigeration, ventilation, plumbing, and piping systems
- Cross connection surveys and backflow prevention testing
- System controls and integration
- Commissioning & startup services
- Customized inventory and spare parts list
- Laser alignment
- Chiller, process burner, and boiler service and maintenance
- PSM Services

CUSTOMIZED PREVENTATIVE MAINTENANCE & SERVICE

A proven industry leader in maximizing the efficiency and reliability of industrial refrigeration, HVAC, plumbing, and control systems—trusted for both comfort and process applications.
