**Creating Customers for Life®**

"A true partner who collaborates seamlessly with the engineering and construction teams to deliver success for the client." – Kevin, Foth Product Solutions

INDUSTRIAL REFRIGERATION | HVAC | BUILDING AUTOMATION & CONTROLS

PLUMBING | METAL FABRICATION | MAINTENANCE & SERVICE

# COMMITMENT TO SAFETY

Safety and a job well done go hand in hand. We are committed to providing a safe, injury-free workplace for all our associates and prioritize the safety of our customers and communities by incorporating safe practices into every step of our projects. CEO & Executive Chairwoman Kim Bassett often emphasizes, "I want to ensure our associates are equipped with best-in-class safety training, tools, and professional resources so that they can safely execute their work and go home unharmed at the end of each day."

## FULL-SERVICE MECHANICAL EXPERTISE

We deliver custom-built solutions in industrial refrigeration, HVAC, plumbing, metal fabrication, and preventative maintenance to customers across the United States and around the world. Our headquarters in Kaukauna, Wisconsin, includes a 300,000 sq. ft. facility, with additional offices in Madison, Milwaukee, and Wausau, Wisconsin, as well as Rochester, Minnesota.

As a full-service provider, we offer expertise in engineering and design, fabrication, industrial ventilation, piping, hygienic duct solutions, laser cutting, HVAC and PLC controls, Process Safety Management (PSM), emergency HVAC and ammonia response, and proactive preventative maintenance. We provide regional maintenance services, deliver construction solutions nationwide, and ship fabricated systems globally.

## LEAN

Since 2006, Lean principles have been fully integrated into our daily operations and business model. We are deeply committed to continuously improving our products, services, and responsiveness to customer needs. Our team is empowered to identify and implement improvements that eliminate waste and enhance the value we deliver, ensuring more efficient, effective, and customer-focused outcomes.

## DIGITAL INNOVATION

We integrate advanced digital tools like MSUITE to streamline design, fabrication, and field operations. Our use of BIM, FAB, and FIELD modules enables paperless workflows, real-time tracking, and data-driven insights. These capabilities support efficient pre-fabrication, reduce field labor, and enhance safety and quality.

## ISO CERTIFICATION

We were the first mechanical contractor in Wisconsin to achieve ISO 9001:2000 certification and currently maintain accreditation to the ISO 9001:2015 standard. Our customers appreciate that our processes, products and services meet internationally recognized standards for quality, safety and efficiency.
